

NIELSEN FREIGHT

EXPECT MORE FROM YOUR TRANSPORT

HISTORY AND FOUNDATION

At the marketplace a little boy stands in the mud shading his eyes from the sun. Fascinated, he watches the old man showing a red cow to a potential buyer. With affection, the man glides his hands along the back of the cow before letting it disappear into the marketplace with its new owner...

Regardless of whether you deal in cattle at livestock markets, as my grandfather and father did in the 1970s, or you ship hundreds of designer chairs from Copenhagen to São Paulo – the objective is the same; to give your customers an excellent experience that keeps them coming back ...

Both my father and grandfather had this quality when they traded cattle all over Denmark. They may not always have agreed with the customer – and they wouldn't always sell if they were unsure of the animal's well-being with its new owner. But they were renowned all over the country for what they stood for and for their honest business sense.

NIELSEN Freight is founded on these same classic business virtues, where morals and ethics take precedence over economics. We don't necessarily have to become Denmark's largest logistics company. We would rather be the logistics partner that our customers recommend to others – because we have made a positive contribution to the development of their business by raising the bar for innovative logistics solutions.

FROM LIVESTOCK MARKETS TO INNOVATIVE LOGISTICS

“Regardless of whether you deal in cattle at livestock markets, as my grandfather and father did in the 1970s, or you ship hundreds of designer chairs from Copenhagen to São Paulo – the objective is the same; to give your customers an excellent experience that keeps them coming back ...”

Morten Steen Nielsen

Owner, NIELSEN Freight

We have solid experience in transport and logistics solutions. Regardless of the size and complexity of your freight needs, we will find the very best solution for you.

When you choose **NIELSEN Freight**, you always get personal service, a global network of innovative and professional partners and, not least, delivery of your goods on time and at the agreed price. Expect more from your transport – **we have the solution!**

ITS ALL ABOUT NETWORK...

Global network for sea freight

With **NIELSEN SEA** you get an optimal sea freight solution for both FCL (Full Container Load) and LCL (Less Container Load). We analyse and map all types of sea freight and always base our advice on your specific needs in order to achieve the solution that is best for you.

Global network of couriers

We ensure fast, easy and secure delivery of your packages –all over the world. **NIELSEN EXPRESS** is your guarantee for an efficient and reliable courier solution. Import or export, Express or Economy, we have the experience as well as the network to get the job done.

Global network for air freight

Whether you are sending equipment for graphic production or 15 tonnes of iron plates, we've got the freight solution. With **NIELSEN AIR** your freight is tracked all the way to the final destination – and all over the world – in a personal and efficient way. We analyse and map all types of air freight solutions and always base our advice on your specific needs.

Nordic & European network of road freight

With **NIELSEN ROAD** you add value to your chain of transport for road freight throughout Europe. Through our strong network in the transport industry we offer temperature controlled freight solutions, parcels to and from 22 countries, Full Loads, Part Loads and express deliveries in all of Scandinavia and also to and from Southern Europe.

Distribution network in Denmark

Get fast and secure delivery of your packages with **NIELSEN DISTRIBUTION**. Through our extensive distribution network in Denmark we handle all types of packages and pallets all over the country.

PROJECTS AND WAREHOUSES

Project and crane assignments

Whether you need to move your business, coordinate deliveries to a construction site or transport oversized freight, we have the solution. We handle the logistics and obtain the needed permissions, before you start. **NIELSEN PROJECT LOGISTICS** is your guarantee for a successful project.

Warehouse management and terminal handling

Flexible storage solutions at variable costs.

With **NIELSEN LOGISTICS** you can focus on your core business while we handle with everything else, from storage, packing and distribution of your goods to continuous stocktaking. We have storage solutions throughout Denmark for both large and small quantities. With more than 8,000 square metres of warehouse we also have room for your freight.

IMPORTANT REASONS WHY YOU SHOULD WORK WITH US

Cooperation with us should give you added value

Trust and reliability are fundamental values to NIELSEN Freight when it comes to cooperation with our customers –as well as the prerequisite for creating an optimum freight solution to you and your company.

NIELSEN Freight is founded on the idea that we are a highly professional logistics and transport company that makes decency and loyalty to our customers a top priority. This means that we are honest and direct in our communication, and impartial in relation to our business partners. This enables us to create real value for you, your company and your customers

We take responsibility

At **NIELSEN Freight** we have solid experience in innovative transport and logistics solutions. We believe that the best solution raises the level of service for your customers. Cooperation with us gives you several advantages:

- 25 years of experience of carrying out assignments on an operational as well as managerial level in Scandinavia and the rest of Europe
- Experience from some of the leading transport companies in Denmark
- More than 10 years of experience in logistics and transport solutions to foreign countries

Price and speed of delivery are far from the most important criteria of success. Our advice is always based on each individual shipment and we think outside the box in order to help you make the right decision from the outset. We believe that no two freight solutions are identical.
